

# MINI-MIXER MATV-IF

## SATELLITE AND TERRESTRIAL SIGNALS OVER ONE SINGLE CABLE

REF.	ART. NR.	DESCRIPTION	EAN 13
745220	ESW21	MINI-MIXER MATV-IF 47...790-950...2400MHz DC	8424450186268

**+** The Mini-Mixer MATV-IF is a passive device that allows for to mix over one single cable, the signals which come from a terrestrial antenna and a satellite antenna, offering both signals over one single output. It incorporates a filter in the channel 60 (LTE790 Ready). This product allows the signal to pass from the output to the satellite input for the LNB power.

- "Easy F" connection system, reliable and safe, saving up to 50% of the installation time
- Great shielding, thanks to its chassis made in zamak
- Its ultra-reduced size allows for its installation anywhere, including small size register boxes
- Minuturization is also applied in electronics, improving the electrical behavior and reducing impulsive noises
- Indoor and outdoor installation (with reference 417801)
