Watch crisp and clean video anywhere, anytime

Homeguard's Professional Security System lets you view your world in more details than ever before with real-time 2MP HD recording. The NVR's Power over Ethernet ports make setup quick and easy, with one cable installation per camera that provides both power and HD video. The smart Detect PIR Heat-sensing Technology can reliable detect people, large animals & cars for avoiding false notification. 2 megapixel IP cameras record footage at 30 FPS to transmit smooth on-screen movement. Wide 103° angle lenses provide extensive video coverage from every camera. 3D digital noise reduction technology filters noise from your image (day & night) for a cleaner, more accurate image. With the ability to view live footage through your phone, tablet, TV or computer, this Homeguard NVR kit will offer you peace of mind, wherever you are in the world.

- Full CCTV kit, including 1 × 8CH network video recorder & 4 × 1080p PoE network CCTV cameras
- Captures superb, high quality Full HD footage
- Power & video run through a single Ethernet cable per camera with PoE cabling for easy installation
- Heat & motion activate the Sensor Warning Spotlights, helping you deter any potential intruder
- The cameras feature PIR motion & heat sensors designed to eliminate false triggers
- Passive Infrared Technology (PIR) delivers up to 7m/23ft of motion detection
- Fully weatherproof (IP66) cameras with up to 30m/100ft night vision
- 8 channel network video recorder, support up to 8 cameras
- Access live footage from anywhere in the world using a computer, tablet or smartphone

How PoE IP security system work ?

Homeguard NVR systems utilizing power-over-ethernet (PoE) technology only require a single Ethernet cable to connect camera and recorder. The Ethernet cable clicks into the back of the NVR and IP Camera. This cable provides both power and video transmission.
